

# Task 8.1 - Collaborative Framework and Toolkit

Authors: Miha Ambroz, Eneko Madorran, Kristina Olausson, Petra Severin and Monika Sobocan

## Objectives

- Develop and test tools and resources to support joint activities across the Joint Action and Network.
- Support Task 8.2 and Task 8.3 with tailored tools and processes for efficiency and quality
- Facilitate knowledge exchange across the network

## Key activities

### Tool & ICT-Platform Development

- Test internal and external portals/webpages, databases and collaborative tools.

### Activity groups working with:

- Surveys and guidelines
- Workshop guidelines
- Seminars/webinars
- Interview design
- SharePoint
- Portal with member area
- Address book and Calendar for WP8

## Goal and outcomes

### Providing seamless integration and support within WP8 sub-tasks

- Contributing to the development of a robust and functional ICT platform, including tailored toolkits designed to support and enhance network-related activities.
- Establishing effective internal communication channels to support coordination and transparency.
- Fostering shared learning and mutual knowledge exchange across the network through structured mechanisms
- Building a sustainable structure for long-term collaboration and continuous improvement.
